THE HERITAGE AND VISION OF THE FOUNDERS

Emmanuelle Jane Paris is born from the imagination of its founder, who created a fictional character, Emmanuelle Jane, to embody the soul of the brand.

Emmanuelle, a name that is both unisex and timeless, symbolizes the duality between strength and softness, between the feminine and the masculine. It reflects the House's desire to create fragrances that are often unisex, designed to captivate the senses rather than a specific gender.

Emmanuelle, first a unisex name, symbol of balance and union. Neither entirely feminine nor entirely masculine. She represented the duality that inspires the brand: the meeting of strength and delicacy, light and shadow, elegance and boldness.

It is from her that the unisex dimension of many creations comes, designed to dress the skin rather than a gender.

Jane, then free, curious, a wandering spirit. She crosses borders, carries in her luggage essences from elsewhere, and blends olfactory cultures with ease. Paris becomes the stage of her birth. In its streets, between workshops and boulevards, Emmanuelle Jane finds her identity: refined, modern, yet faithful to the heritage of French perfumery.

Thus, Emmanuelle Jane Paris is not just a brand. It is a living story, that of an imaginary being who, through each fragrance, expresses a free, elegant, and boundless soul born to celebrate the many forms of beauty in the world.

THE HERITAGE AND VISION OF THE FOUNDERS

Driven by passionate founders with over 30 years of experience in the world of perfumery, Emanuelle Jane Paris draws inspiration from the heritage of French niche perfumery.

The house offers unisex fragrances with rich and bold compositions, blending tradition and modernity.

Emmanuelle Jane's olfactory universe revolves around oriental, woody, and amber accords, enhanced by precious notes such as oud, vanilla, musk, and saffron, signatures of a style that is both timeless and contemporary

OUR VALUES

ÉLÉGANCE
CHARACTER
TIMELESSNESS

At Emanuelle Jane Paris, each fragrance is the result of a strong commitment: to offer characterful perfumes, designed and crafted in France.

Our concentrates are developed in Grasse, the world's perfume capital. This local production ensures quality, traceability, and excellence, while preserving French craftsmanship.

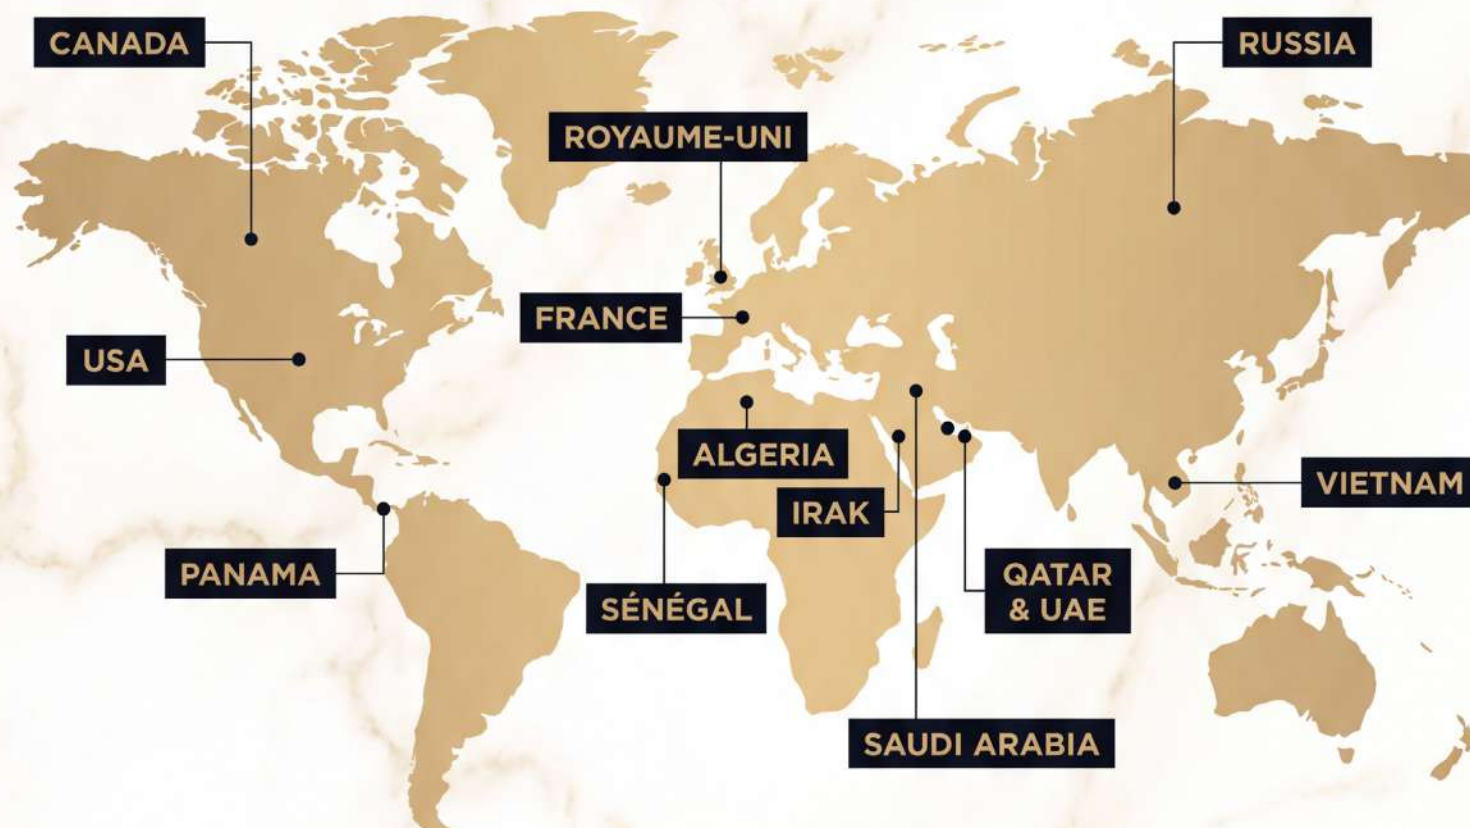

Combining tradition and elegance is our signature.

500 POINTS OF SALES IN 25 COUNTRIES

With more than 500 points of sale in 25 countries, Emmanuelle Jane Paris has established itself as an exceptional French perfume house.

From Paris to Dubai, and through London, Casablanca, and Riyadh, the brand embodies French elegance within a selective and demanding distribution network.

Our creations are now present in the most prestigious retail destinations, alongside the iconic houses of global perfumery.
